LibGuides CMS

Facilitated by: Jenn Cournoyer, M'lyn Hines, Pauline Clifford, Jarrod Borek, Brian Donohue-Lynch, & Cindi Brassington

What is LibGuides CMS?

- LibGuides is a content management system used by libraries worldwide

- LibGuides CMS : http://buzz.springshare.com/producthighlights/whylgcms/overview

Why use it?

- LibGuides CMS allows for flexibility in layout
  - You are not restricted by the College website templates

- You don't need to know how to code in HTML or CSS

- You have direct control over your LibGuides

Today's Objectives

- Set up your profile

- Create a new guide or copy from an existing guide

Do's and Don'ts

Do's

😄 **Less is more**
- ➤ Sound bytes, not paragraphs

😄 **Layout**
- ➤ <u>F-shape</u> scanning
- ➤ Scroll line
- ➤ Clean layouts, whitespace
- ➤ *Relevant* images or video

Student Review

😄 **Make it ~~Readable~~ Scan-able**
- ➤ Font: sans serif
- ➤ Font size: 60-72 characters per line
- ➤ <u>Color</u>: use sparingly, check <u>contrast</u>
- ➤ Consistency: headings, sub-headings, body-text

😄 **Interactivity**

😄 **Contact Information**

Don'ts

Don't be a silhouette

Don't create speed bumps
- Don't explain the obvious
- Don't bury the main point
- Don't fill the screen with text
- Don't use a passive voice
- Keep **bold** and *italics* to a minimum

Don't impose detours
- Avoid multiple tabs – unseen & unused
- Avoid hiding your message below the scroll

Don't confuse the user
- Avoid <u>underlining</u> for emphasis – it looks like a hyperlink

Assorted & Sundry

- File upload size: 20MB

- About 10GB per LibGuide

- Remember to give credit when you use a video, image, etc.

- Where can I find open access images? There's a LibGuide for that! Confused about licensing? Click here.

- You can also do a quick search by image license on Google!
